

# Harrison College

### Client-at-a-Glance

Harrison College is dedicated to educating students and has developed a reputation as a two-year degree granting institution, graduating students from job-oriented programs into successful careers. Programs include accounting, administrative assistant, business administration, Cisco network associate, criminal justice, fashion merchandising, human resources, medical assistant, medical laboratory technology, and surgical technology, among others.

Harrison College makes a lifelong commitment to its graduates, offering placement assistance and services, counseling, networking with employers and students, refresher courses, and other programs, all designed to ensure that Harrison College graduates get good jobs in their chosen fields.

### Scholastic Exam Helps College Choose Successful Students

Harrison College has designed its two-year, Associate of Applied Science degree programs with the input of key business professionals who know what it takes to be successful in a chosen career field. In addition to delivering top-notch education, Harrison College commits to the success of its graduates by providing placement services and networking to match graduates with jobs in their field. It also works directly with area employers to offer qualified, educated, skilled workers for open positions.

Harrison College gives the Wonderlic Scholastic Level Exam (SLE) to ensure applicants are placed in the correct programs. **“The Wonderlic Scholastic Level**

**Exam has been very successful for us,” says Charlene Sample, Corporate Director of Recruitment.** “The degree programs at Harrison College are academically challenging. We want to set our students up for success and help them to succeed. The Wonderlic Scholastic Level Exam is one step in our admissions process that helps us determine their level of success in a fast-paced, hands-on environment.”

Because the Wonderlic Scholastic Level Exam measures the ability to learn, it is the most powerful predictor of training and job success. As a school aptitude test, it has been approved by the American Council on Education as a valid predictor of vocational training outcomes and accepted by all accrediting associations. Used in Career School testing, the Wonderlic Scholastic Level Exam is also the best single predictor of student academic success.

Candidates take the Wonderlic Scholastic Level Exam during an admissions interview. “Under the guidelines of Wonderlic Scholastic Level Exam, we give prospective students two opportunities to take the assessment,” Sample says. If students don’t pass the Wonderlic Scholastic Level Exam after the second try, they are encouraged to take refresher courses or programs at their local testing centers. Harrison College does everything it can to see that individuals take the steps necessary to be successful in any college course.

“The Wonderlic Scholastic Level Exam has been **very successful** for us.”
